EXPERIENCE

2017- 2025 V2i Group
Queensland, Australia

Senior 3D Artist and Multimedia Specialist

Key roles and responsibilities:

Interpreting architectural drawings, masterplans, and planning documentation to produce high-quality 3D visualisations and real-time environments.

3D modelling of built form, environments, and assets using tools such as 3ds Max, with working knowledge of Revit for handling and coordinating BIM-based models.

Working with complex datasets including photogrammetry, LiDAR, and terrain models to accurately represent site context and built form.

Producing marketing and presentation animations, including storyboard development, scene composition, lighting, and cinematic flythroughs.

Still perspectives, video editing and post-production, including animation, compositing, colour grading, motion graphics, and visual effects.

Delivering immersive outputs including VR/AR experiences and large-scale projection environments.

Developing and improving internal workflows and pipelines to streamline production and maintain visual quality.

Collaborating with internal teams and external consultants, including coordination of outsourced work where required.

Key Projects: **Cross River Rail Delivery Authority Digital Twin, TMR(Department of Transport and Main Roads) - Coomera Connector, TMR - Gold Coast Light Rail, Sunshine Coast City Council - Maroochydhore Sugar Road and Maud Street upgrade.**

2013- 2022 Sandbox Studios
